Linux, Azure VMs, WSL, Windows Terminal.

PROJECTS

NetFix – Windows Network Troubleshooting Tool

- Developed an interactive Python-based automated diagnostic tool and packaged it as a standalone EXE for non-technical Windows users.
- Available on GitHub

Resume built with HTML/CSS

- Designed and coded a custom HTML/CSS résumé with responsive layout and PDF export styling.
- Source hosted on GitHub

PROFESSIONAL EXPERIENCE

Service Desk Technician — Discovery Elementary
Apr 2024 – Jul 2025

- Managed Active Directory accounts and password policies for 760+ endpoints, applying CompTIA A+ and Security+ practices to ensure secure access.
- Resolved wireless/WAP issues, ISP outages, and IP conflicts, leveraging A+ and Network+ skills to maintain uptime.
- Investigated and remediated malware and phishing incidents, applying Security+ practices to improve compliance and reduce attack surfaces.

Cybersecurity Intern — Skool at the Cyber Range
Jan 2025 – Present

- Perform vulnerability scans (Tenable) and implement remediation tasks based on severity and asset priority.
- Gain exposure to RMF processes and compliance documentation through lab exercises and simulated audits.
- Build familiarity with Microsoft Sentinel, Defender for Endpoint, and DISA STIGs in a training-range environment.

Substitute Teacher — AVUHSD & LANSD
Apr 2022 – Present

- Deliver instruction in STEM and science classrooms; maintain accountability and a calm environment across diverse student groups.

Office Manager — American Plumbing Co.
2018 – Jun 2021

- Oversaw payroll, scheduling, and IT/software procurement for a small business office.

Petty Officer 2nd Class (E-5) — U.S. Navy Reserves
Jun 2013 – Jun 2021

- Held Active Secret Clearance (2013–2023).
- Led battalion medical readiness initiatives, contributing to 100% mission readiness.
